COMMISSIONING AND HANDOVER RECORD

(CATEPOX® Heat- and Wear-Resistant Coating)

Document ID: SBC-CHR-CAT-EN-001

Version: 1.0

Language: English

Issue Date: 22/07/2026

1. PURPOSE

This Commissioning and Handover Record is intended to document the final inspection, acceptance and commissioning of surfaces protected with the **CATEPOX® Heat- and Wear-Resistant Coating** system.

The purpose of this document is to confirm that the coating system has been applied in accordance with the applicable technical specifications, successfully inspected and accepted for its intended service conditions.

2. PROJECT INFORMATION

Description	Information
-------------	-------------

Project Name	
--------------	--

Project Location	
------------------	--

Client	
--------	--

Contractor

Facility Operator	
-------------------	--

Handover Date	
---------------	--

Record Number	
---------------	--

3. PRODUCT INFORMATION

Description	Information
-------------	-------------

Product Name	CATEPOX® Heat- and Wear-Resistant Coating
--------------	---

Batch (LOT) Number	
--------------------	--

Quantity Used	
---------------	--

Description	Information
-------------	-------------

Number of Coats	
-----------------	--

Coated Surface Area	
---------------------	--

4. INSPECTIONS PERFORMED

Inspection	Compliant	Remarks
------------	-----------	---------

Surface Preparation	☐	
---------------------	--------------------------	--

Material Mixing	☐	
-----------------	--------------------------	--

Coating Application	☐	
---------------------	--------------------------	--

Coating Thickness	☐	
-------------------	--------------------------	--

Adhesion	☐	
----------	--------------------------	--

Curing	☐	
--------	--------------------------	--

Visual Appearance	☐	
-------------------	--------------------------	--

5. CONDITION AT HANDOVER

At the time of handover it has been verified that:

☐ The coating is free from visible damage.

☐ The coating has fully cured.

☐ The surface appearance is uniform.

☐ No visible defects were identified.

☐ The coating system is suitable for its intended service.

6. DOCUMENTS PROVIDED

☐ Technical Data Sheet (TDS)

☐ Safety Data Sheet (SDS)

☐ Application Guide

☐ Maintenance Guide

☐ Inspection and Acceptance Checklist

☐ Quality Control Plan

☐ Repair Procedure

☐ Other: _____

7. COMMENTS

8. FINAL DECLARATION

By signing this Commissioning and Handover Record, the parties confirm that the completed coating system has been jointly inspected, the required documentation has been provided, and any observations or outstanding items have been recorded in this document.
